

1 Using the SDG Cards:

Select 1 SDG that you want to explore. Using the bullet points on the back, write down the main points you want to focus on.

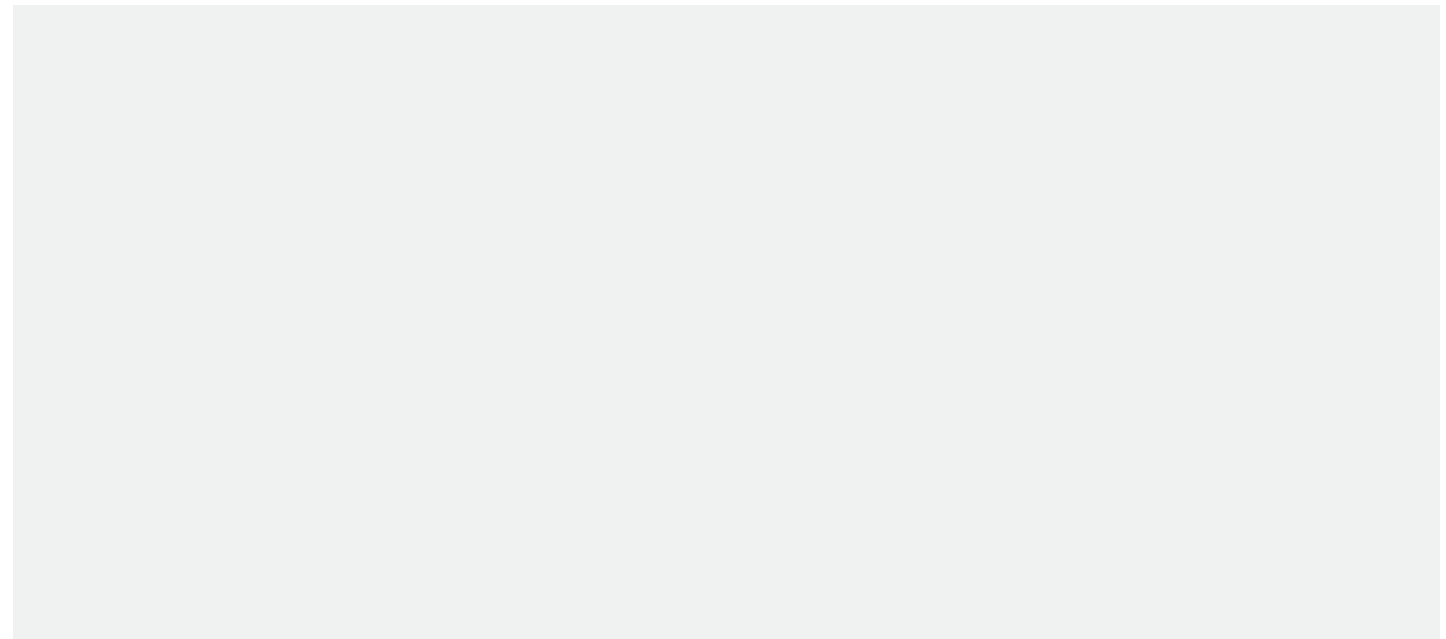

2 Using the Design Strategy Cards:

Identify 1 or 2 Design Strategies that you could use to design a new product or redesign an existing one.

Use the Brainstorming questions in the cards to guide the ideation.

Consider:

- How will this strategy impact the selected SDG?
- What product can be designed or redesigned using this strategy?
- Does this strategy fit my design process and product range?
- How does it impact the aesthetic and performance of the product?

3 Using the Fibers & Materials Cards:

Identify the Fibers & Materials that fit your product type, work well with the selected Design Strategies, and can impact the selected SDG.
